

PROJECT PROFILE

Derek Woodman
BMW & Mini

Introduction

This impressive site for Derek Woodman hosts one of Europe's largest BMW dealerships and also includes a separate MINI dealership at the same location. With a range of prestigious vehicles both inside and outside the showrooms the client needed the site secure from theft and damage, both internally and externally. Flexibility was the key objective, any security systems installed had to allow for day-to-day situations such as parts deliveries out of hours, general public viewing of vehicles and a high level of vehicle usage. With this in mind Derek Woodman turned to Black Box Security for a suitable solution.

Total system solutions for a safer environment

**BLACK

SECURITY**

Providing security solutions for a fast moving business

Black Box Solution

We worked closely with the client from the initial design stage to develop a bespoke solution to ensure the risks of operating such a large site were all taken into account. The integrated solutions we recommended were driven by the clients needs and designed uniquely from the information given to us.

Black Box project managed the installation with regular update meetings; this meant that the client was kept informed during the project without having to be on site to manage it.

Our experience of working and managing similar projects of this scale in the past proved invaluable, this knowledge allowed us to complete the project to the client's requirements and satisfaction, on time and on budget.

Conclusion

To combat the security risks for this client our integrated solution included: Intruder alarm systems to the latest European standards with high security RedCARE signalling, CCTV incorporating fully functional dome cameras integrated into remote monitoring to our Remote Video Response Centre and controlled access to the site working in conjunction with the physical security on site.

Why choose Black Box Security?

Black Box Security has built a reputation on over 35 years of experience in the security market providing bespoke security solutions to commercial and residential customers. Our NACOSS Gold Approval for the installation of security systems, reflects the high levels of technical expertise and commitment that is needed to protect people, property and their assets.

Based on the concept of total capability, we can provide a complete package of electronic systems and solutions to combat almost any security risk. From a stand-alone system to the integration of different security systems interfaced to a building management system we have the solution. Our one-stop service ensures you receive the support and services appropriate to your needs providing design, installation and maintenance for total peace of mind security.

From the smallest family home to the largest business, you'll find a cost effective solution at Black Box Security.
