

PROJECT PROFILE

KFC Fast Food Outlets

Introduction

KFC (Kentucky Fried Chicken) is the world's most popular chicken restaurant chain with many outlets across the U.K. The KFC franchised restaurants cater to the general public serving a varied menu of value for money, fast food meals. KFC's security objectives to Black Box were to increase staff and customer safety, monitor staff and therefore prevent unauthorised activities and to keep a check on people and movement, thus identifying undesirables on the premises. So far we have satisfied the criteria securing over 20 KFC restaurants in the Northwest with bespoke solutions to observation/security problems.

Total system solutions for a safer environment

Black Box Solution

After carrying out a detailed survey and risk assessment of the client's premises Black Box provided a simple cost effective security solution designed to protect the individual needs of each KFC restaurant. Black Box has a wealth of experience in project managing security installations in the leisure and retail sectors. From the outset we controlled the installation of both security systems and at the final commissioning of each project our engineers rigorously checked the systems ensuring quality workmanship and on-time completion.

Conclusion

CCTV systems were installed, integrated into remote monitoring. Versatile use of high-speed dome cameras with powerful zoom lenses were incorporated to monitor the cash register, dining areas, entrance and car park. Monitored intruder alarm systems were also installed to the latest European Standards with high security RedCARE signalling. This security solution provided effective crime protection and created a safer environment for both employees and customers alike.

Why choose Black Box Security?

Black Box Security has built a reputation on over 35 years of experience in the security market providing bespoke security solutions to commercial and residential customers. Our NACOSS Gold Approval for the installation of security systems, reflects the high levels of technical expertise and commitment that is needed to protect people, property and their assets.

Based on the concept of total capability, we can provide a complete package of electronic systems and solutions to combat almost any security risk. From a stand-alone system to the integration of different security systems interfaced to a building management system we have the solution. Our one-stop service ensures you receive the support and services appropriate to your needs providing design, installation and maintenance for total peace of mind security.

From the smallest family home to the largest business, you'll find a cost effective solution at Black Box Security.

TOTAL CAPABILITY SECURITY SOLUTIONS FROM A SINGLE SOURCE
