Total capability solutions from Black Box Security

Consultation-Survey

Our specialist consultants will be able to advise you as to which security system will be the most appropriate to suit your specific needs.

Design

Cost effective design is a priority. We are involved from the outset working alongside architects and engineers to design systems precisely tailored to each project.

Installation

We take great pride in our high standards of installation and our engineers will ensure the quality completion is on-time and on-budget.

24 Hour Monitoring

In the event of an alarm activation, a signal is sent to our Alarm Receiving Centre and within seconds the police and keyholders are alerted.

Service and Support

Operators are on duty around the clock to provide you with any assistance dispatching engineers on emergency call outs and scheduled maintenance visits.

We're big enough to handle security solutions for all types of businesses

Black Box Security has built a reputation on over 35 years of experience in the security market providing bespoke security solutions to commercial and residential customers.

Our NACOSS Gold Approval for the installation of security systems, reflects the high levels of technical expertise and commitment that is needed to protect people, property and their assets.

Based on the concept of total capability, we can provide a complete package of electronic systems and solutions to combat almost any security risk. From a stand-alone system to the integration of different security systems interfaced to a building management system we have the solution. Our one-stop service ensures you receive the support and services appropriate to your needs providing design, installation and maintenance for total peace of mind security.

From the smallest family home to the largest business, you'll find a cost effective solution at Black Box Security.
