**COVID-19 POLICY**

The government has moved into its next phase to delay the spread of COVID-19 (Coronavirus) and mitigate the impacts.

It is our primary responsibility at Black Box Security Alarm Systems Ltd to provide our employees with the safest working conditions possible, we have communicated new guidelines for our team to follow in order to help limit the spread of COVID-19 and provide our customers with a safe and professional service.

Black Box Security Alarms Ltd stakeholders meet daily to review the situation and we will revise our policy as and when necessary, in line with government recommendations in relation to COVID-19.

Our strategy includes steps to reduce health risk to colleagues and clients, minimize the risk of premises becoming a node of transmission, ensure plans are in place should colleagues be quarantined or infected, and ensure alternative arrangements with suppliers and customers so that the business operations can continue with the minimum of disruption.

In order to ensure safe conditions we are following guidelines and recommendations by both local and national health agencies.

We are limiting meetings of large groups of employees and external contacts and are educating colleagues on effective prevention methods in accordance with issued guidelines.

As infections in the UK increase, we will be taking even more precautionary measures when providing services to customers.

Taking the measures we have implemented we are adopting, as far as possible, a “business as usual” approach and would like to thank our employees for providing the best service to our client’s and to our customers for their continued support.

**Services we offer:** - Intruder Alarm | CCTV | Access Control | Intercoms | Door Entry | Fire Detection & Alarms | Emergency Lighting | Gas Suppression | Induction Loops | Nurse Call | Public Address Voice Alarms | Disabled Refuge | Disabled WC Alarm | Bespoke Lockdown Solutions | Takeovers of Existing Systems | Remote Monitoring
